

## **ARMONIA**

art work

“Armonia” is born from an artistic project by Lodovico Cupioli immersed in imaginative research that wishes to express Music through other forms of art. The originality and texture effects created by the skilled hands that use our scagliolas allow us to step into the charming game of shades and “vibrations” that indeed have a strong emotional link to music. Armonia is a handmade art work made on commission in a limited edition, which we are proud to introduce to the furnishing world as a wall decoration and vertical curtains, such as a room separator of sorts. Each art work is signed by the artist.

In the pictures, the Armonia artwork cm. 200x180 in texturised scagliola.
