

**NOTE**  
art work

This piece follows on from a personal artistic theme by “Lodovico Cupioli” aimed at interpreting music through his own particular art form. In Note, the artist uses sculpted effects to express his ideas, placing the focus on the flowing rhythms created by the bold relief of the details. The silver leaf finishes with their light patina are a choice of the artist, thanks to which the alternating light and shade give movement to visual symphonies. Note is a limited edition handmade art work made on commission. Each artwork is signed by the artist.

In the pictures, the Note artwork cm. 220x180 in scagliola with patinated silver foil finishing.
